PROFILE

Computer science student with strong fundamentals in programming, data structures, and software development. Proficient in Python, SQL, and comfortable working with basic development tools. Passionate about applying AI to solve complex problems efficiently.

EDUCATION

B.Tech in Computer Science and Engineering (2022-2026)

Providence College of Engineering, Chengannur | CGPA: 7.4

Higher Secondary Education (2020-2022)

SCS Higher Secondary School, Thiruvalla | CGPA: 9.3

PROJECTS

1. Real-Time Pothole Detection from Vehicle Mounted Cameras (In progress)

- Developed a YOLO-based object detection model to automatically detect potholes from road images and video feeds.
- Performed augmentation, model fine-tuning to improve precision and recall.

2. Gesture-Controlled Virtual Mouse

- Built a Python-based real-time computer vision application using OpenCV and MediaPipe.
 - Implemented real-time gesture recognition to control cursor movement, clicks and scrolling without physical devices.
-

CERTIFICATES

- Presented a project paper at the ICMTIF 2025 Conference.
 - Software Testing, NPTEL
-

SKILLS

- **Programming languages:** Python, SQL
- **Platforms:** VS Code, Visual Studio, Google Colab, GitHub
- **AI/ML:** OpenCV, TensorFlow, Keras, NumPy, Pandas, Computer Vision, CNN, Scikit-learn, YOLO
- **Soft Skills:** Quick Learner and Adaptable, Effective Communication, Willingness to Learn, Teamwork
